

# Special education 2010

## Number of pupils transferred to special education unchanged, small increase in part-time special education

Eight-and-a-half per cent of comprehensive school students, or over 46,700 pupils, had been transferred to special education in autumn 2010. The share was unchanged from the previous year. In all, 23.3 per cent of pupils, or 128,700 comprehensive school students received part-time special education during the 2009-2010 academic year. The number of pupils attending part-time special education grew by half a percentage point from the previous year. These data derive from Statistics Finland's Education Statistics.

### Shares of pupils transferred to special education and receiving part-time special education among all comprehensive school pupils 1995-2010, % 1)

1) Comparable data on part-time special education are available for the 2001-2009 period (year 2009 referring to the 2009-2010 academic year). The numbers of pupils transferred to special education and recipients of part-time special education cannot be added together because some of the pupils transferred to special education also receive special teaching part-time.

The share of pupils transferred to special education was highest in the region of Päijät-Häme, where it was 10.5 per cent. The number of pupils transferred to special education was lowest in the region of Åland, three per cent of pupils. Compared with the number of pupils, the number of pupils receiving part-time

special teaching was highest in the region of Etelä-Savo, over 27 per cent. No part-time special education was arranged in the region of Åland.

Altogether 11.5 per cent of boys and 5.5 per cent of girls had been transferred to special education. Twentyseven per cent of boys and 19 per cent of girls attended part-time special education during the 2009-2010 academic year.

In 2010, 30 per cent of those transferred to special education were fully and 24 per cent partially integrated into groups attending general education. In all, 32 per cent of those transferred to special education received teaching in special groups in comprehensive schools and 14 per cent in special schools. Special education was arranged in general education groups more often than in the previous year. Instead, the number of pupils studying in special schools and in special groups decreased.

During 2009, a total of 18,300 students in vocational education leading to a qualification received special teaching. Their number is 1,800 higher than the year before. The share of special students was 6.5 per cent among all vocational education students and 13.4 per cent among those attending vocational education aimed at young persons.

Other learning difficulties	434	5 514	5 530	29	11 507	1 249	12,2	7 677	3 830
<b>Total</b>	<b>2 904</b>	<b>92 843</b>	<b>32 788</b>	<b>122</b>	<b>128 657</b>	<b>768</b>	<b>0,6</b>	<b>77 485</b>	<b>51 172</b>
Compared with number of pupils in comprehensive school, %	21,8	26,8	17,1	9,7	23,3	.	.	27,3	19,0
Number of pupils in comprehensive school on 20 Sept 2009	13 322	347 060	191 684	1 263	553 329	–7 732	–1,4	283 647	269 682

1) Data on part-time special education were collected on those pupils in the autumn 2009 having received part-time special education in the academic year 2009–2010. Each pupil is entered in the table only once according to the primary reason for part-time special education. The pupils accepted or transferred to special education who received part-time special education in addition to other special teaching arrangements are also counted as having received part-time special education.

**Appendix table 6. Special students in vocational education by place of provision of special education in 2004-2009**

Year	In special vocational institution	In other educational institution providing vocational education		Total <sup>1)</sup>	Share of number of students in vocational education, %	Number of students in vocational education
		In special group	In general education group <sup>2)</sup>			
2004	2 493	1 557	8 401	12 451	5,4	230 823
2005	2 464	1 863	9 618	13 945	5,7	243 398
2006	2 461	1 693	10 762	14 916	5,8	256 872
2007	2 461	1 718	11 279	15 458	5,8	266 479
2008	2 397	1 605	12 460	16 462	6,0	275 498
<b>2009</b>	<b>2 536</b>	<b>1 659</b>	<b>14 066</b>	<b>18 261</b>	<b>6,5</b>	<b>281 572</b>

1) In 2009, of special students 17,550 studied in school type curriculum-based education, 521 in education preparing for a skills examination and 190 in apprenticeship training.

2) Includes apprenticeship training and education preparing for a skills examination arranged elsewhere than in special vocational institutions.
