

### **Employment 2015**

Occupation and socio-economic status

# Wage and salary earners with families worked most as professionals in 2015

According to Statistics Finland's employment statistics, most wage and salary earners with families were employed as professionals (338,000 persons) at the end of 2015, while wage and salary earners without families mostly worked as service and sales workers (103,000). Compared to wage and salary earners without families, relatively more wage and salary earners with families worked as professionals, technicians and associate professionals and managers, and in the armed forces.<sup>1)</sup>

### Occupational structure of wage and salary earners with families and without families in 2015

The difference in shares between persons with families and without families was biggest for professionals, 4.5 percentage points, and for technicians and associate professionals, 3.2 percentage points (Appendix tables 1b and 1c).

<sup>1)</sup> A family is formed by married or cohabiting couples or those in registered partnerships and their children, by one of the parents with their children and by married and cohabiting couples and registered partners without children. The child's age is not significant. The occupational groups are in accordance with the Classification of Occupations 2010.

For wage and salary earners, the most typical occupational groups included in professionals were secondary education teachers, early childhood educators, software developers, and mechanical engineers. Among service and sales workers, the most common occupational groups of wage and salary earners were shop sales assistants, social work assistants, childminders in kindergartens and other institutions, and building caretakers. (Appendix tables 2–3.).

#### Most common occupational groups of wage and salary earners included in professionals in 2015

Occupational group (AML 2010)	Wage and salary earners 2015	Share of persons with families, %	Share of persons without families, %
233 Secondary education teachers <sup>1)</sup>	21,181	82.4	17.6
23411 Primary education teaching professionals	19,118	87.0	13.0
2342 Early childhood educators	18,985	85.3	14.7
2512 Software developers	18,232	74.0	26.0
2144 Mechanical engineers	15,392	81.2	18.8
Professionals total	420,151	80.4	19.6

<sup>1)</sup> Occupational group 233 Secondary education teachers total in industry General secondary education (TOL 2008: 8531).

### Most common occupational groups of wage and salary earners included in service and sales workers in 2015

Occupational group (AML 2010)	Wage and salary earners in 2015	Share of persons with families, %	Share of persons without families, %
5223 Shop sales assistants	99,379	74.2	25.8
53213 Social work assistants	42,423	77.5	22.5
53111 Childminders in kindergartens and other institutions	28,335	82.6	17.4
5153 Building caretakers	23,813	72.4	27.6
51201 Cooks	21,705	71.1	28.9
Service and sales workers total	416,571	75.3	24.7

## Most common occupational groups almost the same for wage and salary earners with and without families

The groups of the ten most common occupational groups for wage and salary earners with and without families differed from each other only in few cases like childminders in kindergartens and other institutions, social instructors, house builders, and building caretakers (Appendix tables 4b and 4c).

The average age and median of wage and salary earners with families were 42 years. In turn, the average age of wage and salary earners without children was 40 years and the median age was 38 years.

### Most common occupational groups of wage and salary earners with families in 2015

### Most common occupational groups of wage and salary earners without families in 2015

#### Share of persons with families biggest in the occupational group of managers

The share of persons with families<sup>2)</sup> in wage and salary earners was nearly 90 per cent in many occupational groups included in managers, such as manufacturing managers, managing directors and chief executives, and retail and wholesale trade managers. The share of persons with families in occupational groups not included in managers was the biggest for private childminders and public health nurses, 88 per cent. (Appendix table 5a.).

Correspondingly, the share of persons without families<sup>3)</sup> in all wage and salary earners' occupational groups was not very high in any occupational group, but was at most under 50 per cent. The shares of those without families were biggest among plasterers, around 50 per cent, among bartenders (45 per cent), among announcers on radio, television and other media (43 per cent), and among croupiers and related gaming workers (41 per cent). (Appendix table 5b.).

- 2) Of occupational groups with at least 150 persons.
- 3) Of occupational groups with at least 150 persons.

In Statistics Finland's employment statistics for 2015, the occupations of wage and salary earners and entrepreneurs aged 18 to 74 have been classified into occupational groups according to the Classification of Occupations 2010. 4)5)
<ul><li>4) Occupation data are produced primarily based on a person's main employment in the last week of the year.</li><li>5) Data on occupation was unknown for around 3.8 per cent of all wage and salary earners, for around 3.5 per cent of all wage and salary earners with families and for about 4.6 per cent of all wage and salary earners without families in 2015.</li></ul>
