	2018	0.1	0.2

1) In 2016, the average was calculated from data revised between the first and seventh release months in the statistical reference year. The average for 2017–2018 was calculated upon completion of the data for the first and last release months in the statistical reference year, when the official structural business and financial statement statistics are also published.

2) In 2016, the average was calculated from the absolute values of differences between the first and seventh release months. The average for 2017–2018 was calculated from the absolute values of differences between the first and last release months in the statistical reference year, when the official structural business and financial statement statistics are also published.
