

# Input-output 2012

## *Mining and quarrying the most significant product group of intermediate consumption in 2012*

*According to the supply and use tables concerning the year 2012, mining and quarrying (incl. crude oil) was the most significant product group of intermediate consumption in Finland's national economy. The next most important product groups were coke and refined petroleum products, real estate services, constructions and construction works, and chemicals and chemical products.*

### Shares of largest product groups of intermediate consumption at purchaser's prices

Product group (CPA)	Share (%) of all intermediate consumption
05_09 Mining and quarrying	5.6
19 Coke and refined petroleum products	4.6
68 Real estate services	4.5
41_43 Constructions and construction works	4.4
20 Chemicals and chemical products	3.9
35 Electricity, gas, steam and air-conditioning	3.7
10_12 Food products, beverages and tobacco products	3.6
49 Land transport services and transport services via pipelines	3.5
25 Fabricated metal products, except machinery and equipment	3.3
69_70 Legal and accounting services; services of head offices; management ...	3.2
62_63 Computer programming, consultancy and related services; information services	3.0
28 Machinery and equipment nec	2.9
52 Warehousing and support services for transportation	2.9
71 Architectural and engineering services; technical testing and analysis services	2.6
24 Basic metals	2.6

Intermediate consumption consists goods and services consumed as inputs by a process of production, excluding fixed assets (capital goods), whose consumption is recorded as consumption of fixed capital.

Statistics Finland publishes annually supply and use tables describing product flows in the national economy, and input-output and analysis tables derived from them. The data published now concern the year 2012 following the new European System of Accounts (ESA 2010). Data according to the new European System of Accounts concerning the years 2010 and 2011 will be released in April 2015. Data

for 2000 to 2009 will not be published according to the new European System of Accounts. Tables concerning the year 2013 will be published in December 2015.
